Mr. Emanuel Pavener
655 Madison Ave.,
New York, N.Y.

Dear Mr. Pavsner,

As I told your secretary Friday, when I spoke to Steve Bair at Dell on Friday he indicated there is no problem with those funds Dell acknowledges owing me. He says they will pay them, indicating he had already ordered this, to be with the Aptil 15 accounting.

Until after this, I believe we should be silent, not to complicate that part.

John Friedman was with me when I phoned Bair. The check will go to him. If he does not receive it promptly, he will check and let us know.

I found a number of pressing matters on my return. However, I am confident I will have everything promised in your hands by the 15th, probably sooner. It would be helpful and save me some time if your secretary could get the Meredith file from Dick, to whom I sent all or almost all the letters and let me know what it includes. I would then copy what it does not. I believe either the former president, Ralph Woodward, or their counsel, was in touch with Dick. The new president is Charles Byrne. I phoned him Thursday when he was in a meeting, left a message, but he did not return my call then or the next day.

John has a Dell file, for he did the negotiating. He will assemble it and have it available.

Sincerely,

Harold Weisberg
